bill before congress?"

The proposition to prohibit us it New Mexico from taking any mor water from the Rio Grande or its tributaries," replied Mr. Pergusson, "it simply an outrage. Colorado is ever year taking more and more water or of the river and lessening our supply and our only hope of salvation is build dame and catch the flood waters. If the Culberson bill should ever be come a law we are caught between two milistones to grind us hopeless! down, Colorado being the upper an Texas the lower stone. The result wi the atter ruin of our agriculture industries along the Rio Grande.

We have no objection to Et Pas getting a dam built by the government provided we are loft free to do likewise. and there is unquestionably enough water running to waste to fill all the dams we will build for the next fift; years and the international dam as well, as witness the flood at El Pano in as a more satisfactory rate on muni-1897 and the many floods all along the cleal funding bonds. river throughout New Mexico and at El Paso. New Mexico has no desire to be unneighborly toward El Page or to hamper or injuly this city or he later ests in any way, but we must protec curselves from rain and we ask he more than our just rights in the prem

"Colorado le taking more and more water each year until our supply he simust disappeared at the seasons it most needed and it is evident that Colorado intends to continuo doing so Recently the farmers of Kunsus pet tioned the governor and attorney gen eral of their state to leatitude proceed ings to have Colorado enjoined from appropriating all the waters of the Arkannas river. A state like Kansas may be able to help itself, but as a territory it is helpless except to protest with its might against this Cuiberson bill.

"I am, however, perfectly satisfied that there is no possibility of the bill ever passing congress in its present form or until that clause is taken out ! been in congress and I know something of the sentiment there the subject. The bill was reported last time from the senate committee unde emisapprehension of its true purpor and now that this is understood it has been sent back to the committee an there is no chance of its ever being brought forth again until the clause forbidding New Mexico to construcdams is eliminated from H."

The Times further says: The provimon so objectionable to New Mexico has long ago been condemned in a very emphatic manner by the chamber of commerce and the citizens of El Pass generally. Nearly a year ago resoluons to this effect were passed by the chamber of commerce and by a masmeeting at the court house. El Pano supposed then that nothing there would heard of this objection; ble clause end no one was more surprised than the people of this city when they learned for the first time it was still in he bill before congress. Purthermore El Paso, as roon as the fact was known here, acted again through the chamber of commerce and sent a protest by whe to Senator Culberson asking for the elimination of this provision, and Sanator Turney has been to Washington to endeavor to bring about an under standing. El Pano hos also petitioned the attorney general, through the chamber of commerce, to dirmies the injunction suit against the Elephant Butte Dam company.

PAYMENT ON MINING DEAL.

oney Mining Properties Paid for Out of Fraduct of Mines.

A country deal of considerable imports ice and magnitude was concluded yeswhy by a final payment on the part the purchasers, says the Sirver City,

Conterprise. The property is located in the Cooney nining district and consists of three patented inining claims, known as the id Cooney mines. The property was located by J. C. Cooney, who lost his life at the hands of the Indians on April 29, 1880, Capt. Michael Cooney succeeded to the ownership of the property tme he has not been seen and no one and from him it has been transferred to the present owners. The purchasers are the "liver Har Copper Mining company, whose officers are D P. Sill, president: C. S. McCreery, secretary; C. H. White, treasurer, and H. C. McCreery, o this time, has been an encountal. She scheral manager. They are all Colora do people who recognized the richness of the district. The amount paid for the property was \$46,000, and was made n three payments, the first on October Mr. Benmands was exemplary in his 31, 1800, the second on May 1, 1900, and habits, and the only explanation of his the final yesterday of \$12,500. The greatmysterious, disappearance would seem or portion of these payments were made out of the product of the mines, all of tealt with or that he is the victim of which production was the result of sucmental aberration this many friends country development work since Octobor, 1899. Thus the mines have during that period actually paid for themselves. The retiring owners, after twen-Reports show a greatly increased ty-one years of production, wish their successors twenty-one years more imilar success. This is the aind of leoneumonta and grippe. RHEUMATISM Distorts Muscles, Shatters Nerves,

Is due to an acid poison which grans access to the blood through failure of the proper SIIICRS JOINS.

organs to carry off and keep the system clear of all morbid, effete matter. This poison through the general circulation is deposited in the jointa, nuscles and nerves, causing the most intense pain.

Rheumatism may attack with such auddenness and severity as to make within a few days a healthy, active person helpless and bed-ridden, with distorted limbs and shattered nerves; or it may be alow in developing, with alight wandering pains, just severe enough to make one feel uncomfortable; the tendency in such cases is to grow worse, and finally become chronic.

Like other blood diseases, Rheumatian is often inherited, and exposure to hamper cold, want of proper food, insufficient clothing, or anything calculated to impair the health, will frequently cause it to develop in early life, but more often not until middle age or later. In whatever form, whether acute or chronic, acquired or inherited, Rheumatism is Strictly a Blood Disease,

and no liniment or other external treatment can reach the trouble. Neither do the preparations of potash and mercury, and the various mineral saits, which the doctors always prescribe, cure Rheumatism, but A remedy which builds up the general health and at the same time rids the system of the poison is the only safe and certain core for alternatism. B. E. S., made of roots, herbo and barks of wonderful solvent, purifying properties, attacks the disease in the right way, and in the right place—the blood—and quickly neutralises the acid and dissolves all poisonous deposits, stimulates and reinforces the overworked, worn-out organs, and clears the system of all unihealthy accumulations. S. S. S. cures permanently and thoroughly, and keeps ruin the digestion and break down the constitution.

the tilood in a pure, healthy state,

Mr. J. O. Malley, 123 W. 12th Streat, Indianapolis, Ind., for eighteen months was so terribly afflicted
with Rheamatism he was nable to feel or drass blassed. Doritive acid his case was hopeless. He had
rich diffy-deep prescriptions that friends had given him, without the slightest relief. A few tention of
a 8 fl curve blan permanently, and he has sever had a rheucante pain since. This was five years ago.

We will send free our special book on Rheumatism, which should be in the issueds
of every sufferer from this torturing disease. Our physicians have made blood and skin
diseases a life study, and will give you any information or advice wanted, so write them
folly and freely about your case. We make an charge whatever for this service. Address. SWIFT EPERIFIC CR. Assaults. Sa the blood in a pure, healthy state,
